5. Pripombe:

Remarks:

Ta homologacija je veljavna za serijsko izdelane enote pod naslednjimi pogoji:

Posamezni izdelki iz serijske proizvodnje morajo ustrezati najmanj vsem zahtevam Direktive 72/245/EGS, nazadnje spremenjeno z Direktivo 2009/19/ES.

Priloženo tehnično poročilo o preskusu in skice so sestavni del te homologacije.

Vsak izdelek mora biti čitljivo in trajno označen z:

- oznako proizvajalca oz. trgovsko oznako in
- homologacijsko oznako.

Izdelek je lahko označen tudi s tujo homologacijsko in tovarniško oznako, če s tem ni motena razpoznavnost in čitljivost homologacijske oznake, ki jo je dodelil slovenski homologacijski organ.

Na enoti ne sme biti oznak, ki bi lahko privedle do zamenjave z uradno dodeljeno oznako.

Kakršnekoli spremembe na enoti so dovoljene samo na podlagi posebnega dovoljenja homologacijskega organa. Neupoštevanje tega določila lahko povzroči odvzem homologacije in se kaznuje po zakonu.

Veljavnost homologacije preneha z vrnitvijo ali z odvzemom. Homologacija se odvzame, če pogoji za podelitev in obstoj homologacije ne obstajajo več, če lastnik homologacije krši obveznosti, povezane s homologacijo, oziroma če se ugotovi, da homologirani izdelek ne ustreza več veljavnim predpisom.

Proizvajalec je dolžan stalno kontrolirati kakovost homologiranega izdelka in njegovo skladnost s homologacijsko dokumentacijo. O tej kontroli je dolžan voditi evidenco in omogočiti vpogled v zapiske nadzornemu organu, ki ga določi homologacijski organ. V primeru ugotovitve neskladnosti s homologacijsko dokumentacijo je proizvajalec dolžan o tem takoj obvestiti homologacijski organ.

Homologacijski organ lahko kadarkoli preverja pravilno izvajanje pooblastil, dodeljenih s to homologacijo, in v ta namen tudi izbira vzorce za ponovni preskus. Stroške tega preverjanja nosi proizvajalec.

Vsako spremembo oznake proizvajalca, naslova ali proizvodne tovarne oziroma pri homologaciji imenovane pooblaščenec osebe je treba takoj sporočiti homologacijskemu organu.

Pravice, podeljene s to homologacijo, so neprenosljive. Pravice tretjih s to homologacijo niso prizadete.

V primerih, da se proizvodnja ali prodaja izdelka ne začne v roku enega leta od podelitve homologacije, da se proizvodnja ali prodaja prekine za več kot eno leto oziroma, da se predvideva taka prekinitve, je o tem treba takoj obvestiti homologacijski organ.

O začetku proizvodnje ali začetku prodaje oziroma njihovem ponovnem začetku je treba obvestiti homologacijski organ najkasneje v enem mesecu.

Pravno razlago v zvezi s to homologacijo lahko daje samo slovenski homologacijski organ.

This Approval shall apply to series produced devices under the following conditions:

Individual products of series production shall comply at least with all the requirements of the Directive 72/245/EEC, as last amended by Directive 2009/19/EC.

The attached test report and drawings are a constituent part of this Approval.

Every device shall be marked with a readable and indelible:

- manufacturer's marking or commercial marking and
- approval marking.

The device may also be marked with a foreign approval and factory marking, provided that the identifiability and readability of the approval marking granted by the Slovenian type approval authority is not affected.

The device shall not bear any markings that may lead to confusion with the officially allotted marking.

Changes of any kind performed on the device shall be subject to special permission by the Slovenian type approval authority. Non-compliance with this provision will bring about withdrawal of the Approval and will be prosecuted.

The Approval will become ineffective when returned or withdrawn. The Approval shall be withdrawn: should the conditions for its granting and existence no longer exist, should the owner of the Approval break his obligations related to the Approval, or when it has been established that the approved device no longer complies with the applicable regulations.

The manufacturer shall regularly inspect the quality of the approved device as well as its conformity with the approval documentation. He shall keep record of this inspection and allow to the surveillance body appointed by the Slovenian type approval authority access to the records. Should any non-conformities be found with respect to the approval documentation, the manufacturer shall immediately inform thereof the Slovenian type approval authority.

Any time, the Slovenian type approval authority may check the correct performance of the authorizations appointed through this Approval, and for this purpose also select samples for a repeated test. The costs of such check shall pay manufacturer.

Any changes regarding the manufacturer's marking, the address or the production plant, or the authorized person appointed through this Approval, shall be forthwith notified to the Slovenian type approval authority.

The rights granted through this Approval shall be untransferrable. The rights of third persons shall not be affected through this Approval.

In the case where the production or sale of the device does not start within one year after the granting of the Approval, or the production or sale is interrupted for a period longer than one year, or such interruption is foreseen, the Slovenian type approval authority shall be immediately notified.

The Slovenian type approval authority shall be notified of the start of production or start of sale, or its restart, within a month's time at the latest.

Legal explanations in relation with this Approval may only be given by the Slovenian type approval authority.
